

July 25, 1961

Mr. Wheatley John Taylor
RFD #2, Box 772
Ogden, Utah

Weber River File

Dear Mr. Taylor:

RE: UNNAMED DRAIN

It has been called to our attention that you, during the 6-day period allocated in our letter of July 12, 1961, pumped water from the drain rather than allow the water to flow by means of gravity as anticipated in the directive.

This is to inform you that the directive for distribution of water on this drain did not contemplate the pumping of water by either party and you are in the future not to use a pump during your irrigation period as you reportedly have done. This directive also applies to all other parties involved.

Yours very truly,

Hubert C. Lambert
DEPUTY STATE ENGINEER
